These questions must all be determined by the Legislature at its approaching session, and upon their decision del ends in a great measure the des-tiny of the State.

Upon these important issues, we think, beyond, any doubt, a great divers ty of sentiment prevails even in the ranks of the Unionists, and these divisions will become manifest whenever an attempt is made to draw strict purty lines. A Unionist in Southwestern Kentucky is totally unlike a Unionist in Northern Kentucky.

This fact is recognized and acted on by the leaders of the Union party; and hence an attempt will be made at Frankfort on Monday next, by drill and management, to unite; and harmonize the conflicting elements, now threatening the permanent disruption of the Union organization. The programme of the unconditional Unionists will doubtless be to ignore all conflicting and disturbing issues until an organization of both branches of the Lori letters to otherwise, but, it is by no means Legislature is ellected; but it is by no means certain that the malerate Unionists will consent to enter into any cauens until the policy

The action of the Legislature will have a great influence in shaping the destiny of the State for years to come. It may be that an endeavor nmy be made to commit the State actively for the support of the Lincoln Ad-ministration, but, if this is attempted, beyond any question it will be the signal for resistance and revolution. A heavy responsibility rests upon the Union members of the State Legislature, and we carnestly trust that they

will be fully equal to the emergencies of the occasion—Lou. Coor.

"The Union, the Constitution, and the Enforcement of the Laws.

Under this comprehensive motto many of our citizens fought the last battle for the President Lake R. H. of Tennessee was the idency. John Bell, of Tennessee, was the chosen candidate of this party, and when he found that the sectional party which had substituted the Chicago platform for the Consti-tution had triumphed in the contest, and that Abraham Lincoln, the candidate of that seetional party, was openly trampling upon the Constitution and substituting his arbitrary will and the will of his fanatical party for the laws of the country. John Bell, us an honest man, adhered to the principles upon which he had been nominated, and united against the tyrant who had set himself above the laws and the Constitution. These are facts which belong to the history of the times. The banner of the old party still floats among us "The Union, the Constitution, and the enbireement of the laws 'still holds its place up on that battner, but whereare those who claimed to be the only friends and supporters of th great principles emboded in that motto? The great principles embodied in that motto? The mass of them, with all their public organs, are now the open indvocates of the Lincoln administration which has ignored the Constitution, destroyed the Union, and is daily trampling upon the laws of the States and the Union! Who were the loudest in the cry ngainst the sectional parties of the Presidential contest? Who was it that declared the friends of Mr. Breekinridge were too sectional for their pure and enlarged patriotism? Who was it that denounced most bitterly the ectional and fanatical Black Republicans

are openly sustaining the violation of the Constitution, the suppression of the laws, and the war upon the Union. Who are they?

The old organs of Bell and Everett, the pretended friends of the Constitution par exellence-the parties who are now trying to gull the people with the cry of Union while they are fighting for a despotism which has destroyed both the Constitution and the Union Can any honest friend of the Union and the Constitution give his support to the administration of Lincoln while the evidence of its disregard for the constitution is daily before his eyes? Can any good citizen support a despotism which is daily dragging our citizens from their homes and consigning them to

Can any intelligent man believe in the honesty or patriotism of parties who so plannly show their destitution of principle, by supporting a government which has overthrown and trampled upon all they professed to regard and to be fighting for? We ask these questions, and leave them for the consideration of our fellow-citizens, who will know haw and where to apply them .- Balt. Rep.

Like bread cast upon the waters, it will be gathered many days hence.

At the conclusion of his speech he proposed strict neutrality, and opposing the quartering convent were adopted by quite a large crowd, composed of men of both political parties, without a dissenting voice, only some four or five N. fusing to vote; among this number was the Captain of our Union Home Guards, Mr. Cooper also spoke at Parmleysville, in this inty, on last Monday, to some 800 or n 1000 persons, and he informs us his resolutions were there adopted without a dissenting 1861, (being county court day.) Judge Robt Thus the people of Wayne county have again pledged themselves to neutrality. and we assure you that it is the determined intention of a vust majority of the people

In his speech at this place Mr. Cooper suggested that the two companies of Home Gnards at this place, the one composed of so-called Union men, the other of Southern Rights men, unite and drill under a white banner, significant of peace. This was also agreed to the Captain of our Union Home Guards and three or four others alone dissenting. At the conclusion of the speech, both companies were paradled in the public square—ours, (the peace) the first tive of the Union party, and the last five of the States Rights party, to-wit: Thos. D. Perry, Col. Henry Lewis, Win. Prater. Isaac Adams, and A. M. Gordon. A. J. May, Wm. Lykins, Isauc Cottle, Iosiuh Carpenter, and George D. Said Committee, after an ulscence of some time, reported the following memorial to the Legislature of Kentneky, which was paradled in the public square—ours, (the peace) paraded in the public square-ours, (the peace company) hearing aloft a bunner of pure to-wit: white, which was prepared during the speak-ing, with the single inscription "Peace." Un-der this we invited the other company to parade; but strange to say they refused to do notwith-tanding nearly every member of the company had just voted so to do. So a fusion was not brought about; and as they have since received 200 Lincoln guns, of course we can never unite with them

When their company was organizing. was announced, time and ugain, upon our streets, that "no d-d secessionist (meaning southern men) should become a member of it." Thus they would not permit us to go with them, if we had desired it, neither would they come to us. So if the existence of two panies of home guards in our midst, should unfortunately create any disturbance, which God forbid, let the eurse be upon their own heads. All will yet be well with us in Wayne; a vast majority of the prominent men of the county are now with us, and we are gaining strength and making friends daily The peolpe are beginning to behold us in our true light, and see that we are indeed the

eace party, and we are bound to triumph. We see that the State Central Committee have recommended the holding of mass meetings in each Congressional district in the Stute; and as a better state of feeling exists in this county than any other in the Fourth District, we claim that we are of right entitled to the meeting. Go on with your good begun work, and the blessings of posterity OCCASIONAL.

The Position of England-Possible Recognition of the Confederate States.

The correspondent of the New York Tri bune writes from Washington on Tuesday

"Mr. Adams, minister at St. Jame's, writes that in the British mind the independence of the rebels is fully admitted as a military and litical necessity; that their acknowledgment by England is but a question of time and pru-dent courtesy. That while Britain is impaient to get cotton from the South in exchange for manufactured goods, she is anxious not to lose Northern markets, and is unwilling to part with her hope of breaking down the Morrill tariff by the same means with which he chained the North by the Walker tariff, and that two or three more successes like that of Bull Run would entitle the slaveocracy to immediate recognition.

The Tribune, in an editorial comment on

"Advices from our Minister in London inlicate a certain if not speedy recognition of the Confederate States as an independent power by the British government. But there is in this nothing to surprise or discourage. The tendencies of the British government have not been a secret. The successor failure of the Jeff. Davis rebellion depends on its power at home, not on the fuvor with which it may be regarded abroad. The determination of this momentous question rests with the leaders of the Union party. When the announcement was made directly after the August election that a camp of "government" troops had been established in Garrard county, and immediately followed by the introduction of Federel arms and munitions, the mass of the people were taken by surprise, and the most intense anxiety prevailed to know the purpose and extent of the movement. LOOK OUT FOR THE CONSCRIPTION.—It is impossible for the Federal Government to obtain the army called for by voluntary enlistment. The war fever has expired. Very few are found now coming forward to volunteer for the war, and the next step must be a military draft or conscription. Discreption of the properties of the The War upon the Press.

Every day we hear of additional outrage upon the Press. One after unother the inde pendent presses are sileneed, either by aboli ion mobs or abolition officers, under the instructions of the Government. This is the last resort of tyrants. When they feel that their actions will not bear the light of truth they madly endeavor to stifle free speech and a free press, and thus keep the people in igwhile the destruction of their liberties and the ruin of the country is being consummated. The Constitution has been trampled down; the rights, the property, and the persons of our citizens invaded, and next the press which speaks of these outrages is to be suppressed, so that the masses may be kept in ignorance of the giant strides which despotism is making in the land. Professor Everett is sent out with his rhetorical flourishes to dupe and blind the people by his sophistries, before the bolder spirits of the Administration assume the arbitrary power of seizing upon the press. And while the order for the suppression of leading city journals is being proposed by the Cabinet at Washington, the mobs commence the work in the villages, tear down and destroy the press, and inhumanly maltreat the proprietors who dare to speak against this unholy and fratricidal war forced upon the country by Lincoln & Co. Mr. Jefferson said—"We need not fear er-

ror while truth is left free to combat it." But when the freedom of discussion is destroyed, when a tyrannical government, by the strong hand of military power, forbids the press to speak of its acts, or eall in question its decrees, where is the safeguard of freedom? A Free Press hus been justly styled the palla-dium of our liberties. If the press is no longer free, if it only exists at the will of the tyrants, and none but those who become subervient to their purposes is allowed to speak, how can the people act understandingly and be prepared to defend their liberties against the machinations of their enemies? Abra-bam Lincoln has called for an immense army of fire hundred thousand men, and the enormous sum of five hundred millions of dollars, and a subservient partisan Congress has given him authority to raise these men and to collect this money. Are the people to be any longer gulled with the pretense that this mmense army is for the defense of the Capital? No! It is an army of subjugation! It is for the destruction of the Constitution and the liberties of the people; and if the independent press dares to tell the people the ob-ject of this war, in which they have been plunged by the Lincoln purty, they are to be suppressed by the government, or destroyed by the mob, as may best suit the cir-cumstances of each individual case. This is understood now to be the policy of the government. The war of subjugation passu against the South and the independent press, and when both are effected, Black Republicanism and military despotism will reign supreme in this once free country.—Baltimore Republican.

l Kentucky.

As we have often predicted, Lincoln is making Kentucky a camping ground for his armies, with a view to an attack on Tennessee. Large numbers of armed Lincoln troops, assembled from different States, are now en eamped in Garrard and Boyle counties, on the route to Cumberland Gap, and within a few days immense quantities of arms, ammunition, and camp stores have been forwarded to these camps. The avowed intention of these preparations is the invasion of East Tennessee, with the view of arming the disaffected population in that section, and inaugurating civil war within our borders.

It does appear to us that our military authorities should not wait until these armed hordes reach our borders, but should promptly advance and attack them in their camps Both Union men and Secessionists in Ker tucky have demanded their disperson, and if Lincoln refuses to comply with the demand, as we doubt not he does, the forces of Tennessee should unite with those of Kentucky in expelling them from the State. Prudence demands that we shall not wait until their plans are consumnated, and they accumulate the strength which they desire before risking

It is reported that Major Anderson is about Kentucky and Tennessee. He should be auticipated and his armed minions routed before his arrival. The neutrality of Kentucky has been shamefully violated by the tyrant, and she is now fast being forced into his iniquitous service. We believe that a majority of the citizens are ready to resist him, and they should be promptly supported by a Confederate force, which will enable them to drive back the invuder, and prevent the State from being overrun by his bands of marauders and assassins, like Maryland and Missouri.
